For the venue, production company and event planner

Everything Chris needs at the DJ position to perform. Please share it with whoever supplies the sound, lighting and DJ equipment, and confirm the setup you will provide before the event.

PERFORMANCE

- Performance length and finish time as agreed in the contract.
- Access for setup and sound check at least 1 hour before guests arrive.
- A running order is appreciated at least 7 days before the event.

EQUIPMENT REQUIRED — ONE OF THESE SETUPS

Setup 1
all-in-one system

- 1 × Pioneer XDJ-RX3, **updated to the latest firmware**.

Setup 2
players + mixer

- 2 × CDJ-3000 or CDJ-3000X, **LAN connected**, both **updated to the latest firmware**.
- 1 × Pioneer DJM-A9 or DJM-V10.

Setup 3
all-in-one system

- 1 × AlphaTheta XDJ-AZ, **updated to the latest firmware**.

With every setup
monitoring

- 2 × monitor speakers **on the floor**, connected to the BOOTH MONITOR output on the mixer.

PLEASE NOTE

Any players or controllers not listed above are not acceptable.

Where equipment is not updated as specified, the supplier is responsible should any failure occur during the event.

POWER

- Two dedicated, earthed 220V / 16A circuits at the DJ position, independent of the lighting rig.
- Uninterrupted power for the full duration — generator changeover must not cut the booth.

DJ BOOTH

- A stable table or riser, minimum 180cm wide × 80cm deep × 90cm high.
- Cover overhead if any part of the setup is outdoors, plus protection from sprinklers and rain.
- A clear sightline from the booth to the dance floor.

Feel free to contact me for any further information.
